KNIPEX Quality – Made in Germany

KNIPEX Cobra® Pliers

The Original Push-Button Pliers

Self-locking on pipes and nuts = no slipping off the workpiece, no knuckle-busting

Thin head fits into tight places

Gripping surface with special hardened teeth (61 HRC) is wear resistant and grips any shape object

The original push-button design, stays locked in place

Pinch guard protects against finger and hand pinching

Gripping sizes from 1" - 3 1/2"

Forged box-joint design for higher stability

The KNIPEX Cobra Family

Perfect for gripping, holding, pressing and bending

KNIPEX Quality – Made in Germany

KNIPEX Cobra® Pliers

Here's something you won't find in competitive push-button pliers today–quality and breadth of line. With 23 different products in seven sizes, KNIPEX delivers push-button perfection for nearly every application.

- Compact design and slim head provides firm grip even in tight spaces
- Push-button adjustment directly on the workpiece – adjust once and it stays set

> Box-joint design provides high stability
> Gripping surfaces with special hardened teeth
> Self-locking on pipes and nuts: no slipping on the workpiece and low hand-force required
> Pinch guard prevents fingers being pinched
> One-handed quick adjustment without a push-button allows the tool to get into tight spaces

87 00 100 Cobra XS
> One-handed quick adjustment without a push-button allows the tool to get into tight spaces
